Purpose of the program

The Rapture CharityNode program is intended as a way for non-profit organizations to receive donations directly from our blockchain project. This program utilizes the Rapture blockchain to send rewards from an assigned masternode (the "CharityNode") to the Rapture wallet of the non-profit organization ("Donee Rapture wallet address")

CharityNode beta is split into TWO phases:

PHASE 1: The Donor agrees to supply, at no cost to Donee, the required amount of RAP to set up the assigned CharityNode, and pay server costs for the term of this agreement. At all times the CharityNode and RAP collateral transaction (1000 RAP) remain the property of the Donor. The wallet address of this CharityNode will be listed for public viewing at the Donor website, and remain assigned to the Donee for the term of this agreement. In consideration of PHASE 1 of this program, Donee agrees to have their name, logo, and a contact email listed on the Donor website, and in the case of public inquiries, will verify their participation in PHASE 1 of the CharityNode beta program. Within 3 months of entering PHASE 1, Donee may choose to enter into PHASE 2, or, terminate this agreement and forfeit all rewards collected in their assigned CharityNode.

PHASE 2: Donee agrees to set up a Rapture wallet, to which all collected rewards/donations from the assigned CharityNode (beyond the collateral transaction) will be sent, and all subsequent rewards/donations will be automatically forwarded, until the end of this agreement. During this term, the CharityNode Donee administrator agrees to maintain the security of Donee Rapture wallet address, such that all received rewards remain in possession of the Donee. The public may also make direct donations of RAP to the Donee Rapture wallet address.

In consideration of PHASE 2 of this program, Donee agrees to list Donor on Donee website, under an appropriate section (for example, "donors" or "giving" or "partners") along with Donor CharityNode logo (if possible), link to partner page on Donor website, and Donee Rapture wallet address. Donor agrees to maintain listing of Donee on CharityNode stats page, linking to Donee website, and display both CharityNode address and Donee Rapture wallet address.

Donee may sell rewards on participating exchanges at any time, but agrees to make good faith efforts to sell at a price no lower than 90% of the RAP market value at the time of listing (example: If RAP value at time of listing is 0.001 BTC, Donee must list at 0.0009 BTC or above)

Additional understandings

No guarantee of reward payout frequency or value is implied or stated. Rapture will incur all costs and security risks associated to hosting a CharityNode and use best practices for service, security and maintenance. Rapture will make a best effort to keep the CharityNode running, but rewards are not guaranteed and no remediation can be made for downtime or payout value.

Agreement continues for the term specified unless replaced by another, and can be terminated by either party at any time, with good faith effort of immediate notification to be made, such that rewards/donations are not lost. In case of termination, any unwanted rewards/donations that remain in the Donee Rapture wallet shall be returned to the CharityNode, and will be donated to a different charitable organization.

Donee may not change Donee Rapture wallet address without first informing Donor. In the case that Donee Rapture wallet security is compromised, Donee must make good faith effort to inform Donor, at which time rewards/donations will be put on hold and all rewards held in the assigned CharityNode until a replacement Donee Rapture wallet address is set up.
